

# Year 2—Mr Hunter

- PE is on a Monday and Friday so can children bring their kit in on a Monday and leave it in school to take home on a Friday
- All children need a water bottle in school. They can bring an empty plastic one from home or buy one from the school office for £1.50

### Homework:

We have an exciting new homework system in place this term. All children will get a copy of our new homework project grid and are encouraged to choose one activity per week to complete. They can choose to complete more activities during each week if they wish. We will share all pieces of homework on the last Friday (26<sup>th</sup> May). There is also a points system for this which I'm sure your children will be happy to explain!

◆ Key Stage 1 SATs—WB 15th May

◆ Break up for summer holiday Friday 21st July

*Any further whole school dates will be sent out on the whole class newsletter*

## What's Happening in the Classroom?

Welcome back to all of our families, we hope you have had a relaxing Easter. Our topic this half term will be What a Wonderful World! We will be looking into our local area and comparing the different environments we might come across.

Our learning for literacy will be based around narrative and story writing. We will be watching a short animation called, Marshmallows and this will support us in using descriptive language and writing our own stories.

Maths will focus on using temperature and measuring capacity. We will also be focusing on calculation including multiplication and division and solving problems within this.

Within science we will be looking at growing our own plants and the important things plants need to grow. We will also use plants to create our own shadow art.

We will be planning an educational visit throughout the summer term and will inform you of any further details when it is booked.

**Mr Hunter and Mrs Hall**

- **Sumdog**: can be used on a computer and is available for Ipad, a great collection of maths games. All children have a school log in.
- **Table Mountain, countdown** and **Pole Climber** are great games to practise rapid recall of times tables.
