

At New Penshaw children are at the heart of all that we do. We strive for excellence in teaching and learning to enable children to flourish as individuals, promote resilience, independence and positive attitudes so that all children are able to have success for today and are prepared for tomorrow.

Through an inspiring, personalised, broad and balanced curriculum, we provide opportunities for all pupils to develop the skills, knowledge and understanding that will empower them to be great thinkers who embrace challenge.

Our honest, safe and nurturing environment fosters a culture of mutual respect which supports everyone to become motivated, confident and reflective learners, creating a love of learning to last a lifetime.
